

Since I signed up for the "Do not call" list I have recieved very few calls from telemarketers. If they do call I tell them that they are calling New Jersey and we have this Law. They do not call again. I have had many calls come to me dedicated fax. It is a waste of paper. I no longer have to run to the Phone for an unwanted call. I no longer have to be interupted in the middle of an important call. Please, Please do not change New Jersey's "Do Not Call" law.

Thank you
